👤 Profile

Highly motivated Computer Engineer with broad experience in **Backend Development** using **Java**, **NestJS**, and **Golang**. Proficient in the **Full Stack** with hands-on skills in **React.js** and **TypeScript**. Proven ability to contribute to scalable enterprise applications and architect new platforms from the ground up. Seeking challenging Software Developer roles to leverage expertise in distributed systems and modern development tools like Docker.

📁 Professional Experience

Turkcell Global Bilgi

Software Developer Intern

Contributed to full-stack development of internal apps using **Java** and **React.js**, and designed system architecture diagrams within an enterprise workflow.

06/2025 – 10/2025

Istanbul, Türkiye

Jotform

Frontend Developer Intern

Integrated scalable frontend modules into the existing codebase and optimized UI components to enhance application performance.

08/2024 – 09/2024

Istanbul, Türkiye

Steelify

Software Developer

Architected the complete backend infrastructure using **Node.js** and **NestJS**, designing RESTful APIs to support the platform's MVP launch.

03/2024 – 08/2024

Istanbul, Türkiye

YENA Engineering

Software Developer

Led the backend migration from **Java** to **NestJS**, improving system modularity and development speed for web and mobile applications.

10/2023 – 08/2024

Software Developer Intern

Supported cross-platform development for **React Native** mobile apps and assisted in **Node.js** backend integration.

07/2023 – 10/2023

Istanbul, Türkiye

Monspark

Backend Developer Intern

Built a comprehensive marketplace application from scratch using **Node.js**, managing the full development lifecycle as an open-source project.

12/2022 – 02/2023

Kocaeli, Türkiye

🎓 Education

Karadeniz Technical University

Computer Engineering | Bachelor's Degree

09/2022 – 06/2025

Selçuk University

Computer Engineering | Bachelor's Degree

09/2020 – 06/2022

🧠 Skills

Languages:

JavaScript (ES6+), TypeScript, Java, Golang, SQL.

Frameworks & Libraries:

NestJS, Node.js, GoFiber, React.js, React Native, Spring Boot.

Databases & Tools:

PostgreSQL, MySQL, MongoDB (NoSQL), Docker, AWS, Git, RESTful APIs.

🌐 Languages

Turkish — Native

English — Advanced
